

Thank you for entrusting Mission Hospital to care for you and your loved ones.

Our highest priority is to provide the safest environment so our physicians and caregivers can provide exceptional, high quality care.

In light of the Coronavirus pandemic, we have made some changes to our processes to help to keep you safe.

- **All laboring women should enter the hospital through Mission Hospital's main entrance at Tower 1. Disregard the "no visitors" sign. All patients and their support person will be screened.**
- **Park in 20-minute parking and bring your belongings with you. Your support person can move the car once you are settled into your room.**
- **The main entrance is open from 6 a.m. to 5 p.m.**
- **At night, between the hours of 5 p.m. to 6 a.m., please call the Birth Center at (949) 365-2141 to tell them you have arrived at the Tower 1 entrance. A caregiver will promptly come to let you in. If your call is not quickly answered, please call (949) 365-2151.**
- **If your delivery is imminent, you have unusual bleeding or you have a medical concern unrelated to your pregnancy – you must go to the Emergency Department immediately.**

We recognize that these new processes are inconvenient and we apologize, but given the COVID-19 pandemic we have implemented these precaution for your safety, as well as the safety of your child and family.

Thank you for your support.
